Purpose

The Tuition and Refunds policy describes the steps involved in the refund process, the conditions under which refunds are provided, and the process by which tuition and fees are determined.

Description

Tuition and refund provisions may vary depending on program requirements, student status, and applicable regulatory or contractual obligations. The applicable tuition and refund conditions are outlined within this policy. Certain student groups, including international students, may be subject to distinct tuition and refund provisions, which are detailed in the relevant sections of this policy. Students are responsible for reviewing this policy in its entirety and ensuring they understand the tuition and refund provisions that apply to their program and enrolment circumstances.

Principles

- Before registration, applicants will be informed of the refund policy by their Registrar or designate or Program Advisor.
- The College reviews all tuition and program fees each year during the annual budgeting process with a view to affordability, value and fairness to students.
- Information regarding tuition, fees and refunds is published in the academic calendar, posted on the College website, and is included in the enrolment agreement.
- Application, administration, and assessment fees are non-refundable, unless it is proven that a student was enrolled without having met the program enrolment requirements.
- When a student is dismissed from their program for a financial, Code of Student Conduct, academic policy violation, or any other reason, refunds will be processed based on the last day of the student's attendance.
- International students who are not in compliance with their study permit and/or student visa will not be eligible for refunds of any monies paid.
- Refunds under this policy will be paid to the agency, student, or person who paid the tuition or fees.
- If a student is eligible for a tuition refund and tuition was paid from the StudentAidBC funding (or a similar agency in another Canadian province), Stenberg College will direct the full tuition refund amount to the National Student Loan Centre, so that the refund can be applied to the student's outstanding debt.
- Materials, program kits and textbooks issued by Stenberg College may be declined and

returned by students within thirty (30) days of issue. These may be refunded on a prorated basis depending on their state when returned.

- A student may not register for any program or any term in a degree program unless all tuition and fees due have been paid in full or unless arrangements for an approved alternative payment plan have been made.
- The college reserves the right to dismiss a student if the student has an outstanding tuition or fee balance.
- A refund processing fee will apply.
- Refunds will take thirty (30) business days to process.

Requests for Refunds

All refunds are due within 30 days of formal notification and receipt of all required documents. Refunds before starts must only be made to the same person who made the payments, as per the student contract and PTIRU regulation. If a payment was made by credit card and the student is withdrawing or being dismissed, any refund owing may be processed back to the credit card or by cheque, depending on the request of the student. All cash payments received by the college will be refunded by cheque to the person who paid the money originally.

Fees paid in advance by international students, who have subsequently been refused a visa, are only refundable when accompanied by the official student visa denial letter, as well as the cancellation form completed by the student. Refunds must only be made to the person making the original payment unless a notarized letter is provided proving the original account is closed.

The College must be reasonably satisfied as to the identity of the customer (and others). To discharge the 'reasonably satisfied' requirement, the College must, for example, know the name, permanent address and/or date of birth, as part of the customer due diligence processes before commencing a business relationship.

In the event of an attempted payment by credit or debit card being rejected, the reason should be checked prior to accepting an alternative card. If in any doubt about the identity of the person attempting to make a payment, the transaction should not be accepted.
